## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance: Claim 1 includes the limitations that a spatial resolution improvement method for a PET/SPECT system comprises using a rebinner to derive a bin address output stream and histogramming the bin output stream. Claim 10 includes the limitations that a spatial resolution improvement method for a PET/SPECT system comprises finding multiple gamma interaction centroid locations which are unique for different line of response incident angles.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Townsend, U. S. Patent No. 6,490,476 describes a Pet imaging method comprising a rebinning step (col. 13, lines 29-34) and a histogramming step (col. 23, lines 42-48).
